The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot.

Imperialism.

Ye men of the past, awake to the blast
That sweeps o'er our once happy land;
Come forth from your graves ere your children are slaves,
And for freedom once more make a stand.

Arise in your shrouds till ye darken the clouds,
Hover o'er your degenerate sons;
There's a wolf in the fold that is cunning and bold,
Must be brought 'neath the range of our guns.

This ravenous beast, that was born in the East,
Must not live in the land of the free;
Like the tyrants of old, it depends on its gold,
To root up our Liberty tree.

With a sanctified face, but a heart that is base,
With a tongue that ne'er utters the truth,
It is urging its way, step by step every day,
To poison the minds of our youth.

This monster of pelf, thinking only of self
With sophistry seeks to allure;
Deriding the law, broader would draw
The distinction between rich and poor.

Must the old flag be furled, once the pride of the world?
Must the emblem of freedom take wing?
Are we so lost to shame, are our spirits so tame,
As to bow down our heads to a king?

With pomp and gold lace, but eternal disgrace,
With barons and lords to run riot?
All our liberties, too, in the hands of a few,
And an army to keep us all quiet?

Let Imperialists know they have a stern foe,
On whom chains they shall never affix;
Then arise in your might, to defend your birthright,
With the spirit of Seventy-Six.

The Cockroach.

The cockroach is a bug at large.

He is one of the luxuries of civilization.

He is easy to domestikate, yielding gracefully to ordinary kindness, and never deserting those who show him proper acts of courtesy.

We are led to believe upon close examination ov the outward crust ov the fashionable insecks that they are a highly successful intermarriage between the brunette pismire and the *arteculous bevo*, or common American grasshopper.

He don't leave the place he was born at upon the slightest provacation, like the giddy and vagrant flea, or the ferocious bed-bug, and until death (or some vile powder, the invenshun ov man) knocks at his front door, he and his brothers and sisters may be seen with the naked eye ever and anon calmly climbing the sugar bowl, or running foot races between the butter plates.

The cockroach is born on the fust of May and on the fust of November, semi-annually, and is ready for use fifteen days from date.

They are born from an egg—four from each egg—and consequently they are all of them twins. There is no such thing in the annals of nature as a single cockroach.

The maternal bug don't set upon the egg as the goose duth, but leaves them lying around loose like a pint of spilt mustard seed and don't seem to care a darn whether they get ripe or not.

But I never knew a cockroach egg to fail to put in an appearance. They are sure tew hatch out and run as Canada thistles or a bad kold.

The cockroach is of two colors, sorrel and black. They are always on the move, and can trot, I should say, on a track and a good day, cluss to three minits.

Their food seems to consist not so much in what they eat as what they travel, and often finding them dead in my soup at the boarding house, I have come to the conclusion that a cockroach can't swim, but they can float.

Naturalists have all declared that the cockroach have double teeth. This is an important fact and ought to be introduced into all the primary schools of Amerika.

But the most remarkable feature of this remarkable bug is the loveliness of their natures. They can't bite, nor sting, nor scratch, nor even jaw back. They are so amiable that I have even known one to get stuck in the butter, and lay there all day and not holler for help, and aktually to die at last with a broken heart.—*Josh Billings.*

THE UNHOLY DESIRE OF DRESS.—You wish to dress your wife better than your circumstances will allow. She wants to have you. She is a woman of spirit, as it is said, and she does not mean to be a drudge.

"Why should our neighbors," she says to her husband, "dress any better than we? They are made of the same flesh and blood that we are. See how they come out. I don't think a man of any spirit would let his wife and children go to church as you let us go. Look at these children. You would think that they had just come out of some slop-house! If I had married, as I might have married, we should have had different times—I and my children!"

How many men are stung to the quick by such remarks from their wives. Oftentimes, their moral sense revolts at first, and they feel indignant. But "continual dropping wears a stone;" and by-and-by the man is dressed a little better than he can afford, and his wife and children are dressed a little better than he can afford, and somebody must pay for the extravagance. I do not say that they are tempted to steal; but I do say that they grind. They mean somehow to get it out of the milliner, out of the dressmaker, or out of the merchant. They intend to make one hand wash the other somehow, and they go into petty meanness to bring it about. And this desire to dress better than they can afford is taken off the very enamel of their virtue, and taken out the very stamina of their religious life. Unimportant as it seems, ostentatious vanity in dress has ruined many a family.

THE White Pine *Empire* gets off the following: "Saturday last, while the Chicago visitors, accompanied by Mayor Hyman and others, swelling the party to about forty persons, were inspecting the mines on Treasure Hill, there was much anxiety manifested by the people on the Hill to get a glimpse at the strangers. As the party crossed from the Nevada mine over to the Consolidated Chloride Company, we heard an *hombre* standing by the way inquire of his comrade, 'Which is the Chicagoans, anyhow?' when the individual addressed promptly responded, 'Why, don't you know them? It's those chaps yonder that have to grease their legs to get their pants on.'"

The Sin of Tattling.

A family have a sacred right to privacy. In garding the delicate relations of the household, secrecy becomes a virtue. Even if by chance the private affairs of a household are laid open to a stranger, honor would require him to turn from them, and if a knowledge of them were forced upon him, they should be locked in a sacred silence.

A double obligation of silence and secrecy rests upon one who is a guest in the family. The turpitude of a betrayal of a family history by a visitor is far greater than theft would be. To pocket a half dozen silver spoons would do far less damage, produce far less suffering, and be less immoral than tale bearing. It is a thing so scadalous that it should degrade a person and put him out of good society. To betray the secrets of a household is not only an odious immorality, but it is a sin and a shame to be on good terms with those who are determined to commit such outrages. They are miscreants. They put themselves out of the pale of decent society. They should be treated as moral outlaws.

These hungry eyed wretches who sit in the unsuspicious circle of parents and children, treasuring their words, spying their weakness, misrepresenting their innocent liabilities of the household, and then run from house to house with their shameless news, are worse than poisoners of wells or burners of houses. They poison the faith of man in man. If one opens his mouth to tell you such things, with all your might smite him in the face! There are two actions which justify you in instantly knocking a man down; the one is pointing a gun at you in sport, and the other is an attempt to tell you a secret, which it is disgraceful for him to get, and for you to hear. Make no terms with such people. They are common enemies with good men. Hunt, hurry and hound them out of society! They are the worst pests save one, and that is the listener to the tale-bearer.

There could be no tattling if there were no one to hear. It takes an ear and a tongue to make scandal. Greedy listening is as dishonorable as nimble tattling. The ear is the market where the tongue sells its ill-gotten wares. Some there are that will not repeat again what they hear, but they are willing to listen to it! They will not trade in contraband goods, but they will buy enough of your neighbor. Christian benevolence demands that you do not love ill news. A clean heart and a true honor rejoice in kindly things. It should be a pain and a sorrow to know of anything that degrades your neighbor in your eyes, even if he is your enemy; how much more if he is your friend.—*Beecher.*

CHINESE CHARACTER.—George Wingrove Cooke, the special correspondent of the London *Times* in China, in 1857-8, says, in his prefaratory summary of the Chinese character: "Much has been said and written about Chinese politeness. There is no nation in which in public places you see so little of it. The Chinese peasant has no notion of courtesy. He never makes you a salutation in passing; he never moves out of your way, or even deflects from his straight course without looking to see whether you will get out of his way. The higher classes keep all their politeness for great occasions. For these occasions they have a ritual of ceremonies, and this ritual is a sharp satire upon their daily practice. As their stage plays recall the events of extinct dynasties, so their ceremonial politenesses are historic representations of extinct virtues. Humanity, self-denial, and the true courtesy which teaches Western nations that it is a part of personal dignity to respect the feelings of others, is in China dead in fact, and alive only in pantomine. The life and state prayers of a Chinese statesman, like the confessions of Rousseau, abound in the finest sentiments and the foulest deeds. He cuts off ten thousand heads, and cites a passage from Mencius about the sanctity of human life. He pockets the money given him to repair an enbankment, and thus inundates a province, and he deplores the land lost to the cultivator of the soil. He makes a treaty which he secretly declares to be only a deception for the moment, and he exclaims against the crime of perjury. The meaner imitate at a distance the same qualities. They will put you to death if you innocently cause a death, yet they will not draw a struggling man out of the water, because it would spoil such a capital joke. A Chinaman laughs when he tells you of the death of his most intimate friend—I mean an acquaintance, for John Chinaman does not know what friendship means. Mr. Meadows, who is always an unwilling witness against the Chinese, tells us of a Chinaman who laughed until he held his sides, when relating the funny death of his most constant companion.

THE "CHIGNON" AND ITS EVILS.—Those hideous deformities which young women attach to their "back hair," and then call *chignons*, are fertile sources of disgusting inconveniences. Not long ago attention was called to the fact they are nests of all species of worms and insects. This is bad enough, but it is not all. It is well known that large quantities of the hair used in making *chignons* are torn by harpies from the hospitals and tombs of the East, and this without any discrimination as to the disease of the plundered dead. The result is that the hideous diseases of the East are translated to the West. But a few weeks ago, according to the Newcastle *Journal*, a young lady of that neighbortood died of a loathsome leprosy, the origin of which could be traced to her *chignon* alone. Let this be a "caveat" to *chignon*-wearers.

A NEST OF RATS in Dubuque, Iowa, have raised an important internal revenue question. Some $200 worth of stamps were pasted upon a lot of whisky barrels, stored in a distillery warehouse. The rats having taste for the paste, ate them off. The distiller refused to pay for more stamps, and the whisky cannot be sold. An opinion on rats is expected from Revenue headquarters.

A THEORETICALLY benevolent man, on being asked by a friend to lend him a dollar, answered briskly, "With pleasure;" but suddenly added, "Dear me, how unfortunate! I've only one lending dollar, and that is out."

A Young Parson's Bachelor Experience.

A young parson thus feelingly describes his bachelor experience in the first village in which he settled after entering the ministry:

Old ladies gave me tracts, and tormented me in every possible way. One gave me cough lozenges because a fly got down my throat in church; another sent me her late husband's galoe-shoes to wear when I went out on wet evenings; the late husband's feet were about five inches long. A third sent a wonderful kind of rubber bag, which she said could be applied whenever a chill was felt. Not till my sister came to stay with me did I know that hot water ought to be put into the creature before using it. I had thought it a sort of mat to lay over my feet, and very useless of its kind. A Miss Thompson was the most disagreeable of old maids. She actually one day ran her fingers underneath my collar to see if I wore flannel. During the year I was at Littleback I had thirteen pairs of slippers, twenty-five sermon cases, and three smoking caps worked for me. One young lady embroidered my initials on a handkerchief in slimy-looking black thread. My sister said it was done in hair; and perhaps that accounts for Miss Rudge being so offended when I said I thought Lester's red marking cotton as good as any. Three young ladies declared that I trifled with their affections; two, on the contrary, affirmed that they had rejected me; while the village school-mistress assured the rector that I had tried to press her hand. I certainly never had such hard work as while at Littleback. I had played at least three hundred games of croquet, went to an archery meeting every week, and at any spare moment I was liable to be sent for by Miss Anna Phelps to practice an Italian duet. I bore my trials with Christian fortitude, till one morning the rector sent for me and said that my conduct disgraced my profession. I took the hint, and at the end of one year and three months my career at Littleback was over. The young ladies cried when I went; they said I was "such a darling." Now, I ask my impartial reader whether it was not hard that I should be blamed for the ladies of Littleback? My life is blighted, and all that is left of me is thirteen pairs of slippers, twenty-five sermon cases, three smoking-caps one handkerchief marked "T. G.," and a bad character from my late employer.

A STORY FROM NED BRACE.—Mr. Bacon, of Edgefield, S. C., the hero of the Georgia scenes, under the name of "Ned Brace," was courting a lady either in Georgia or Carolina. She had refused him frequently, and he as often renewed his suit. At one interview she became exceedingly annoyed at his importunity, and told him she could not marry him; that their tastes, opinions, likes and dislikes were totally different. "In fact," said she, "Mr. Bacon, I don't think there is one subject on earth upon which we agree."

"I assure you, madam, that you are mistaken," said Mr. Bacon, "and I can prove it."

"If you will mention one thing about which we agree," said she, "I will marry you."

"Well," said Mr. Bacon, "I will do it. Suppose, now, you and I were traveling together; we arrive at night at a hotel, and there are only two beds vacant; in one there is a man, and the other a woman—which bed would you sleep in?"

She rose indignantly, and replied, "With the woman, of course, sir."

"So would I," earnestly replied Mr. Bacon.

POUNDS TO A BUSHEL.—Save this table for reference; it may be of service some time:

Wheat, sixty pounds.
Corn, shelled fifty-six pounds.
Rye, fifty-six pounds.
Oats thirty-two pounds.
Barley, forty-six pounds.
Buckwheat, fifty-six pounds.
Irish potatoes, sixty pounds.
Sweet potatoes, sixty pounds.
Onions, fifty-seven pounds.
Beans, sixty pounds.
Bran, twenty pounds.
Clover seeed, sixty pounds.
Timothy seed, sixty pounds.
Hemp seed, forty-five pounds.

Dried peaches, thirty-three pounds.

FATAL ACCIDENT.—An Italian named Fortunato Villar, employed in the capacity of filler at the soda works in San Jose, was engaged in filling a bottle with soda when it burst in his hands and a number of fragments of the bottle struck his person. One fragment of glass flew up and struck his neck, inflicting a frightful wound, extending from the windpipe to and severing the carotid artery. The deceased lived about half an hour after the accident occurred.

REV. MOSES CLAMPIT, an excentric preacher, was holding forth at Santa Clara valley; a young man rose to go out, when the preacher said, "Young man, had you rather go to hell than hear me preach?" The young sinner stopped and recollected a moment, and then saying respectfully, "I believe I would," went out.

AN English cockney at the Falls of Niagara, when asked how he liked the Falls, replied: "They're 'ansome—quite so; but they don't answer my hexpectations; besides, I got wet, and lost me 'at. I prefer to look at 'em in an hingraving, in 'ot weather, and in the 'ouse."

THE white women employed in shirt manufactories in Chicago recently raised their price from eighteen to twenty cents per garment, and their employers have sent to San Francisco for a lot of Chinamen to take their place.

A QUAKER once hearing a person tell how much he felt for another who was in distress and needed assistance, dryly asked him, "Friend, hast thou felt in thy pocket for him?"

A CERTAIN Virginia town does not allow old maids. When the girls reach 30, the young men draw lots, and the lucky ones make up a purse for the victim.

Great Victory—White Men Win.

The Democracy of the State and of Yolo county in particular, have reason to be proud of the election of last Wednesday. They made the fight upon a great national issue, squarely defining their position. No special pleadings or subterfuge was resorted to. It was a combat of giants; the wealth and rich monopolies of the country, immensely powerful, against the brawny-armed sons of toil; money against muscle; bullion against brains; right against wrong; the right of the free white working man to hold his head erect, proud of his birthright. His patent of nobility—his citizenship—has been vindicated. The result of this election we believe to be a death blow to the odious Fifteenth Amendment. Let us rejoice and be thankful. The following are the returns as far as reported:

VOTE OF WOODLAND—For State Senator—Minis, (D) 320; Reed, (R) 221; Assemblyman, Kelley, (D) 311; Scott, (R) 240; Sheriff, Bullock, (D) 291; Woodward, (R) 260; County Clerk, Bynum, (D) 313; Wood (R) 238; Treasurer, Kean, (D) 295; Wescott (R) 257; District Attorney, Ball, (D) 311; Davidson, (R) 240; Assessor, Ammois, (D) 267; Burns, (R) 285; Surveyor, Unterhill, (D) 286; Sibley, (R) 254; Pub. Administrator, Sill, (D) 299; Ruggles, (R) 246; Sup. of Schools, Darby, (D) 282; Freeman, (R) 267; Coroner, Lillard, (D) 293; Hunter, (R) 258.

VOTE FOR SENATOR.—The majorities in Yolo county are as follows: Minis—Buckeye, 93; East Grafton, 69; Woodland, 99; Cacheville, 7; North Putah, 144; West Cottonwood, 1; East Cottonwood, 26; Fairview, 1; South Putah, 17; Merritt's, 4. Total, 461. Reed has West Grafton, 1; North Grafton, 2; Washington, 8. Total, 11. Majority for Minis in the county, 450. Reed has a majority of 297 in Solano county. Total majorities: Minis, 450; Reed, 308. Majority for Minis in the District, 142.

REVOLUTIONIZED.—In 1867 the Republicans had a majority in Woodland of thirteen, and the party was dissatisfied, they must have an organ. Well, they got one, which made it a business to malign and abuse the prominent members of the Democratic party; result, last fall eghteen Democratic majority. The abuse was kept up and the election of Wednesday shows a Democratic majority of 50. If that concern is kept running another year, there will be but three Radical voters in Woodland.

RIGHT.—In Marysville, the other day, one man called another a foul name—reflecting upon his maternal ancestor—and got licked. Upon trial the Justice decided that the provocation justified the party inflicting the chastisement.

FIFTEEN THOUSAND.—The Democratic majority in the State will not be less than 15,000. The Legislature will be two-thirds Democratic, in both branches. A glorious triumph of the people over monopolies and fanaticism.

WOMEN SUFFRAGE.—In Sacramento on election day, a woman presented herself at the First Ward polls with a ticket and demanded that it be received. Her request was denied and she went away indignant.

JOAQUIN VALLEY ARGUS.—This is the name of a new paper published at Snellings, Merced county, by R. J. Steele, the first number of which we have received. It looks well and reads well.

GEN. SILAS, the dwarf belonging to Bartholemew's Circus, was thrown from his horse in Marysville, one day last week, receiving injuries from which he died on Wednesday.

JUBILANT.—The Democracy of Sacramento to "jubilated" over the result of the election, on Thursday night. Speeches were made by Senator Comte, Coffroth and others.

LET HIM LOOSE.—There is a dog in this town, that safe in his kennel makes loud and threatening noises. Let him loose; he won't hurt any one, and he won't bark on the streets.

MANFULLY.—The *Union* says that at the election the Republicans "stood up manfully." We are surprised that with the load they had to carry that they stood up at all.

OFF WITH THEIR HEADS.—Coey, the new Postmaster of San Fraecisco, on Tuesday discharged five of the old clerks, appointing in their places his personal friends.

COMING BACK.—Seward and party have arrived in Portland, Oregon, returning from the trip to Alaska.

HON. EDWARD TOMPKINS will deliver the annual address of the State Agricultural Society.

JEFFERSON DAVIS is traveling in Scotland.

The Situation.

As we go to press the reports from every precinct, of every county, are arriving, pell-mell and in disorder, and the reader is left in the dark as to how the election really went. The only thing that we have any assurance of, is that there is hardly a doubt but that the Democracy of the whole State have, like the Democracy of Yolo, determined to veto the Fifteenth Amendment and to keep the Chinamen out of the political ring.

It is difficult, at first, to realize the importance of this decision of the people of California; because it interferes not only with the cherished schemes of the visionary and sentimental Radicals represented by Charles Sumner, but likewise with the programmes of all the numerous outside parties aiming at universal suffrage.

The Democracy, since the days of Jefferson, stand responsible for all the grand political dogmas that have been accepted by the American people, up to the date of the recent war. Since then the Radical plunderers, who have suddenly been inducted into the oleaginous spoils of office, cannot endure the idea of parting with their plunder and are using every unfilled nook and corner of the Radical press to hold their places and toady to the administration of President Grant. But the time comes, predicted by Daniel Webster, when this party whose radical elements, sprang from Massachusetts abstractionists and were met and kept alive by South Carolinia abstractionists, will be kicked from office by an indignant public capable of effecting a revolution both in social and political life.

A QUESTION.—When Brigham Young dies, as he surely will unless he is more favored than any other prophet that has preceded him, there will be fine pickings for the lawyers, Probate Courts, etc. According to the laws of the United States and England only the children by the first wife, and their heirs, can claim or receive any part of the estate unless Brigham should happen to make his will exactly right to evade the law. The question of heirship will be raised first in the Probate Courts of Utah, and next in England. Brigham has many millions of dollars deposited in the Bank of England and invested in the stocks of that country, and although immensely wealthy in Utah, is said to own more property in New York and Liverpool than all his home possessions amount to. It is said that this cunning leader—who has defied successfully the laws of the United States and the spirit of the age—with something akin to the wisdom of Solomon, is so weak and so blind on one point of his own mortality, as to have declined and refused all advice on the subject of making his will. The result will be that his death will be the signal of a set of lawsuits heretofore without a parallel for the amounts involved and the great political results to flow from the breaking up of the Mormon church.

SENATOR WILSON'S WARNING.—This Massachusetts Senator lately published a long communication in the New York *Independent*, in which he said:

This power of wealth, individual and associated, concentrated and diffused, constitutes the *new danger* that is threatening us with a portentious and increasing dimensions. In it are found not alone the abuses of monopoly, but the greater and more disastrous evils of bribery and corruption. Indeed, the signs of the times are ominous, and betoken that we are entering upon an experience damaging and dangerous alike to individual probity and honor, to national reputation and safety. Nor are there wanting indications not only of the possession of this power and the purpose to use it, but of too many susceptible to its blandishments and ready to yield to its sway. The men to use and to be used seem provided for each other.

WHERE IS COPE?—The Elko *Independent* says: "Cope district is about eighty miles from Elko in a northerly direction, being on the south fork of the Owyhee river. A saddle train leaves this place every Saturday on the arrival of the passenger train from the West. Fare, twenty-five dollars. Wagons go through with fine loads now, but a new road is being built by the Elko and Idaho Toll Road Company that will be first-class. There are three stations on the road, where a good meal and plenty of horse feed can be had at reasonable prices. Plenty of water and grass every few miles, and streams filled with trout. The trip from here to Cope is little more than one of pleasure, if one chooses to make it so.

M. E. CHURCH CONFERENCE APPOINTMENTS. Sacramento District: J. B. Hill, P. E; Sacramento, Sixth street, J. H. Wythe; H street, Geo. Newton; Sacramento River Circuit, to be supplied; Elk Grove, J. M. Hinman; Placerville, J. E. Wickes; Coloma and Georgetown, N. R. Peck; Iowa Hill and Colfax, I. J. Ross; Dutch Flat and Gold Run, to be supplied; Auburn and Folsom, J. H. Peters; Wheatland, P. Grove; Suisun, R. W. Williamson; Binghampton, S. L. Hamilton; Silveyville, Geo. Larkin; Woodland, G. Damon; Cacheville Circuit, to be supplied.

OVERLAND MONTHLY.—This California Magazine is equal to any and superior to most of the magazines of the day. The easy, off-hand way its contributors have of saying things is peculiarly Californian. We like it better than anything of its class now published. The September number is equal to any of the past and is worth a year's subscription. It is sold by all newsmen.

ELECTION IN SAN FRANCISCO.—Our latest information, by Atlantic and Pacific Telegraph, indicates the election of Selby, Independent, Mayor of San Francisco, over McCoppin, Democrat, by 124 majority. The Independents also elect Chief of Police, Sheriff, County Clerk and several Supervisors.

FAST.—Dexter made a mile in 2:17¼ last Friday, over the Fashion course under saddle. The track was freshly harrowed, compelling the horse to go wide to get a good track.

THE great international boat race between the Oxford crew (English) and the Harvards (American), resulted in the defeat of the American by a half length or a few seconds—distance 4½ miles. The race excited great interest in both England and America, and it is said that millions changed hands on the result. The banks of the Thames were crowded with spectators, estimated at a million. A return race is anticipated for next year when the Harvards, having the advantages in the late race held by their opponents, may gain that half length.

HEAVY FARMING.—The Chico *Enterprise* says the total yield of John Bidwell's farm this year is 46,482 bushels—35,282 wheat, 10,300 barley, and 900 oats—being an excess of 2,200 bushels over last year. This large crop was harvested in ten days' shorter time than the crop of last year and at considerably less expense. There were also cut 300 tons of hay, besides there is now ripe and ready for gathering eleven acres of corn, said to be one of the finest fields to look at in the State.

SHOOTING SCRAPE.—The Downieville *Messenger*, of last Saturday, says:

A shooting scrape, partaking much of the nature of an assassination, occurred at Mohawk Valley on Friday of last week. It seems that Geo. Furgeson had some difficulty with the wife of a man by the name of Griffith, and insulted her at a dance. Griffith took the insult to heart, and waited for Furgeson with a shotgun. When our informant left it was uncertain whether nor not the wounded man would live.

OUR FUR Traders and Trappers in fitting out here, find Ayer's medicines one of their most profitable articles of traffic. Around Slave Lake and the wild regions of the north, they know their uses and have an abiding faith in them. They say: "Ayer—great medicine—cure sick man," and his remedies, for the disease from which they suffer, will often bring forth their stock of skins even quicker than wampum, rum or tobacco. Savages are not fools if they are unsophisticated in some of the arts of civilization.—[Montreal *Pilot*.

PETTY THIEVING.—Our exchanges are prolific of items under the above heading. Never since California was a State has there been so much of this class of offenses against the law. The character of our new immigration, via Railroad, has not, so far, tended to advance the moral tone of our State. We hope for better things in the future. These petty larceny thieves cannot be too severely dealt with under the law.

SET HIM DOWN.—When a man, either as editor or correspondent of a newspaper, referring to another person or paper says "that fellow" or "that picayune sheet," set him down as an ass, a greenhorn; one who has temporarily thrust himself in a position which he disgraces. These hangers-on of the editorial profession ought to be marked; they are a disgrace to an honorable and responsible calling.

DEAD.—John E. Durivage, once one of the proprietors of the *Alta*, and playwright and author, died recently at Memphis, Tennessee. "May the sods above him be ever green, like his memory in the writer," says Frank Soule, in the *Call*, and our heart echoes the sentiment.

COST OF GOVERNMENT BUILDINGS.—The principal Government buildings at Washington have cost, originally and for repairs and alterations, nearly as follows: Capitol, $18,000,000; Treasury, $6,327,566; Patent Office, $2,033,817; Executive Mansion, original $178,675; total (furniture, repairs, etc.,) $744,092.

THE CAUSE.—Mrs. Harriet Beecher Stowe, in the Atlantic Monthly, says that the cause of the separation of Lord and Lady Byron, was that the latter detected his Lordship in incentuous intercourse with his half sister, Lady Augusta Leigh. She also states that she had the fact from the lips of Lady Byron herself.

VARIETY.—J. B. Nickerson, of Placer county, at the late Fair at Marysville, exhibited 150 varieties of grapes, 175 of apples, 80 of pears, 16 of peaches, 6 of plums, 5 of quinces and 2 of nectarines. Also, almonds and pomegrantes, with 13 kinds of wine and two of brandy, made on his place.

GRAND LODGE.—The Grand Lodge of Odd Fellows will assemble in San Francisco on the 20th of September. The delegation from the East will leave Chicago September 10th, in a special train of Pullman cars, arriving here about the 15th.

COMMODORE VANDERBILT was married on August 21st at London, Canada, to Miss Frank Crawford, of Mobile. The Commodore is 76 years old and the bride 17. December in the lap of May.

APPROPRIATE.—At a meeting of the Santa Cruz County Teachers' institute, Master Walsh sung "Captain Jenks, of the Horse Marines," with great effect. So says a report in the *Central Californian*.

IT is not generally known that Andrew Jackson married a lady whose husband was still living. She was an uneducated but amiable woman, and was most devotedly attached to the old warrior and statesman.

THE JEWISH NEW YEAR.—On Sunday evening, the Israelites will commence the celebration of their New Year, 5630, dating from the creation of the world.

A MAN in Wisconsin has gone into the cultivation of minks. He has fitted up a large enclosure where these valuable fur-animals are rapidly increasing.

STOCKTON GAZETTE.—This excellent paper has commenced its 5th volume. It is one of the best of our exchanges.

OLIVE LOGAN swims like a duck.

SMALL PUMPKIN.—The Los Angeles *News* says: "We saw a pumpkin at the store of A. Sangerber, Esq., at Anahiem, grown upon the farm of Theo. Schmidt, that measured six feet one inch in circumference and weighed 114 pounds; there were eight upon the vine which weighed in the aggregate 800 ponnds."

ITS EFFECT.—The organ of the Radicals has been prolific of abuse of Hon. Wm. Minis and J. C. Ball. The result of its efforts is, Minis runs about 50 ahead of his ticket and Ball about 40. Close out or sell out, if you can.

OUGHT TO BE.—The organ of the Radicals ought to be grateful to Hon. J. M. Kelley, for trying to repeal the dog tax law. It would have been money in the pocket of that institution had he succeeded.

ONE of the reigning Parisian belles is about to be married to a Chinese, one of the attaches of Mr. Burlingame's mission. The parents of the fair one are in despair.

A STEAMBOAT.—The Colusa *Sun* says that Tom Merry was not a candidate for District Attorney of Plumas county, but that he is a clerk of the Steamer Lark.

THE few sparrows imported to the New York parks in 1866 have increased to several thousands, and are of great service in clearing the trees of caterpillars and other vermin.

ALL the lines of travel in the State have consented to carry at half rates delegates to the Grand Lodge of Good Templars.

CARL SCHURZ pronounces the word ignominy *ignomony*. We are not sure but he is right. It certainly sounds better.

A WALNUT tree, eight feet across, petrified into soapstone, was lately discovered 175 feet deep in an Illinois coal mine.

THE rainy season has been very severe along the Mexican coast. The roads leading to the interior from Mazatlan are impassible.

PERKINS, Republican, who declared himself opposed to the Fifteenth Amendment, is elected Senator from Butte county.

MCKEAN BUCHANAN succeeded in closing the Montreal Theatre in two nights for want business.

WHEAT advanced four pence in the Liverpool market on Thursday. No change in the San Francisco market.

SECOND class passengers on the Pacific Railroad report that they were fifteen days coming through.

PIONEER DEAD.—A. J. Grayson, an early Californian, died at Mazatlan on the 17th instant.

ON Friday night, some one stole all the stamps in the Santa Clara postoffice.

JAMES MCCLATCHY has been re-elected President of the Sacramento Pioneers.

THE Valley of Virginia will yield five million bushels of wheat this season.

SENSIBLE.—Carl Schurz refused to make a political speech in San Francisco.

THERE has lately been raging a big fire in the woods of Lake county.

THERE were sixty-two deaths in San Francisco last week.

THE Emperor of the French is said to be dangerously ill.

YOLO COUNTY DEMOCRAT.

County Official Paper.

TOWN AND COUNTY MATTERS.

LAST DAYS OF THE CANVAS.—The last days of the political canvass were well improved by the Democracy of Yolo. On Friday night, of last week, a large meeting at this place was addressed by W. T. Wallace, Democratic candidate for Supreme Judge; Hon. James A. Johnson, M. C. from this District, and Creed Haymond, Esq. Saturday night meetings were held at Buckeye addressed by W. W. Pendegast, and at Cottenwood, where Judge Gwin and W. A. Henry spoke; on Monday at Knight's Landing, W. W. Pendegast and J. M. Kelley addressed a large meeting, swelled by hundreds from Woodland. Tuesday night was given to work. The result of all this will be seen in the election returns published in to-day's paper. The canvass was all along peaceable. We do not recollect of hearing of a quarrel growing out of political difference all through.

THE DEMOCRACY have elected every man on their county ticket. This is glorious, but the way in which the fight was waged is what we intended to refer to. Not an abusive word has been uttered against their opponents. No unkind thing has been said against them. The fight was made upon an issue of overwhelming importance—the rights of the free white working men. His honer was at stake, and in their majesty the people have put the seal of their condemnation upon the scheme concocted to result in their dishonor. The good work is done and well done.

RICKS.—It is rumored that J. W. Ricks will assume editorial control of our Radical contemporary. We congratulate the management of that concern upon a change, in which the character of the new editor makes so bright a contrast to his predecessor. Go in Ricks. We are in favor of progress and we welcome you as a radical advance in the management of our neighbor down the street.

THE COUNTY TICKET.—The whole Democratic county ticket is elected by majorities ranging from 250 to 350. Only one has a less majority than 300—a special effort having been made to elect Burns, Radical candidate for Assessor. Kelley is over 350 ahead of Scott for Assembly, and Ball—who has been so frequently and maliciously assailed by the "revolutionizer" at the other end of the town—is close after him.

TOOK THE HINT.—An individual who has a farm for sale stepped into Frost's real estate office, yesterday, and seeing it crowded with business inquired earnestly the secret of success. "Use printers' ink," was the reply. The man took the hint, brought in his advertisement, and very properly refers to Frost who keeps himself well posted in that line.

TOM THUMB.—It will be seen in another column, that Tom Thumb and wife, and Commodore Nutt with Minnie Warren, will "show" in this place on Tuesday, the 14th inst., afternoon and evening. Of course every one will go and see them. They exhibit at Davisville, on Monday, the 13th.

THE CHINESE JUNK, at the other end of town, was freighted on Thursday with the following, referring to Republicans who "scratched" their tickets: "Look out for your sheep and chickens in the neighborhood of these hybrids." That Chinaman's sheep are in no danger.

THE ladies of the M. E. Church opened and conducted an Ice Cream and Refreshment Saloon (we don't know any other name for it), in Hymans' building, on election day, for the benefit of the Church. We believe it was a success. We know it should have been.

SUPERVISOR.—Geo. H. Swingle has been re-elected Supervisor of the Second District by a large majority. With the backing that his opponent Lowe, had, it is a wonder that Swingle did not get all the votes in the District.

GOING AWAY.—There are many who will regret the loss of the faithful pastor and practical Christian, W. C. Curry, who will soon leave us for his new field of duty at Napa Valley. The best wishes of his charge will follow him.

CALLED IN.—J. J. Ammons, the Assessor elect, call upon us yesterday. We did not suppose, from the terrific assaults made upon him, that he would dare come to town. But he did not seem to be the least bit afraid.

CIRCUS AND MENAGERIE. — Dan Castello's Great Circus and Menagerie exhibits to-day in this place, afternoon and evening. The afternoon is the best time for the little ones to see the animals. Grand parade at 11 o'clock A. M.

GOOD SUCCESS.—That "revolutionizer" at the other end of the town has been very successful. When he started in the Democratic majority in the county was 66, now it is 400; a good years' work.

IT is now thought that the Chinese emigration will not be so large as was expected, and consequently, the project for the establishment of a "Josh" house in this place has been abandoned.

ELECTION day passed off quietly. Not a quarrel, no noise, nothing but work and vote. The vote in Woodland was less than anticipated from the number on the poll list. Over 800 were enrolled but less than 600 voted.

THE weather on Monday and Tuesday last indicated rain, but excepting a slight sprinkle, none came and all were disappointed. The face of Mother Earth needs washing very much.

RUNNING.—Reed is still running—away from Yolo county. Scott has stopped and is ruminating over the folly of writing letters; he has plenty of time during the next two years.

DON'T THEY!—Don't the Radicals of Woodland wish they had taken a little "Democratic whisky" before election? Better try some now; it is said to be very soothing.

SENATOR MINIS regrets that the election came off so soon, as he had only commenced to run. Another week and he would have beaten Reed at Mare Island.

CHANGE OF TIME.—It will be seen by the Company's advertisement in this issue, that the time for the running of trains over the Cal. P. R. R. has been changed.

PREACHING. — Rev. G. Damon, the newly-appointed minister for the M. E. Church in this place, will preach to-morrow at the unsual hour.

MINIS alone beats Reed and the Railroad and Navigation and the "Five" great Companies by a handsome majority.

UNDECIDED.—The Radicals of this county have not yet decided when they will hold their election.

THE mammoth Warehouse of Gray & Freeman is about finished, the workmen being engaged in its roofing.

OBLIGED.—We are under obligations to M. Lasky, agent for the *State Capital Reporter*, for frequent courtesies.

"WE'RE coming, Bro. Minis, with 350 more," was a mistake—450 is the number.

BORN.

SPECIAL NOTICES.

WHAT IS A TONIC?—Bear this in mind,—that although a tonic is, to a certain extent, a stimulant,—a stimulant, unmodified by any medicinal substances, is not a tonic, but a debilitant. IS HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country. Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce, is expelled from the rye spirit which forms the alcoholic basis of the Bitters, by careful and repeated rectification. The juices of the valuable roots, barks and herbs, infused into this wholesome product of the finest grain, still further modify its nature; so that it becomes, in fact, a simple diffusive agent, minus all the heavy and brain exciting properties which belong, more or less, to all liquors in a raw state. It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective,—increasing their active power, and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the Bitters. Instead of creating headache, as unmedicated stimulants are apt to do, this salubrious tonic is the best known remedy for that complaint. It calms and sooths cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the fluids to the surface, improves the appetite, increases the animal vigor, regulates organic action, and, from its mild yet effective alterative qualities, is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them. s4m1

USE PAIN KILLER FOR CHOLERA AND BOWEL COMPLAINTS., for Boils, Cuts, Bruises and Scalds, Old Sores, Sprains Swelling of the Joints, Toothache, Pain in the Face, Neuralgia and Rheumatism, Frosted Feet, Felons, Sore Throat, Sudden Colds, Coughs, &c. Use it for any of these, and you will never do without. Its success as a valuable family medicine has induced others to imitate and counterfeit the Pain Killer to some extent. *Beware of Counterfeits.* s4m1

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose.

There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

Let every one who wants a Watch, read this carefully. Especially if in some remote out-of-the-way place!

Now that the railroad is open, we propose to give the residents of California the opportunity of getting single Waltham Watches at the

LOWEST NEW YORK WHOLESALE PRICES!

We sell more Waltham Watches than any other establishment in the country, either wholesale or retail; we send great numbers to every section of the country by Mail and Express, carefully packed, and in perfect running order. We then send you the watch by Express, with the bill to collect on delivery. We give instructions to the Express Company to allow you to open the package and examine the watch; if it suits, you can pay and take it; if not, you are under no obligation to receive it; and if it is taken, and afterwards does not prove satisfactory, we will exchange it, or

Refund the Money.

As an indication of the Prices, we will quote one watch from our list. The P. S. BARTLETT, Lever Movement, with Extra Jewels, Chronometer Balance, Patent Pinion, Patent Dust Cap, and all the other late improvements, in a Solid Coin Silver Case, for

$28 in Greenbacks, or about $20 in Coin.

—— IN ——

MEDICATION!

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

Dr. Erasmus Winslow's Liver and Stomach Lozenge is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supercede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient. More than one thousand experiments were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness, Constipation, sick or nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenges will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an anti-billious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's Liver and Stomach Lozenge, will ever again take a purgative powder, or draught, or pill.

Payable in seventeen Monthly Installment.

Lots Represented by Shares 50 by 160 Feet.

Lands Immediately Adjoining the City Limits.

Title Perfect!

Payments to begin July, 1869, and to close November, 1870.

This Homestead addition to the City of Sacramento offers unrivaled inducements to all who desire to secure homes, as well as to those seeking to make investments in real estate. Shareholders who pay up in full may take possession of their lots under restrictions consistent with the interests of all Shareholders and an equitable distribution of the property. These restrictions are briefly: 1. Payment in full within six months from July 1st, 1869. 2. Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

Dr. Joseph Walker's CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier!

For Inflammatory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

Make Home Happy.

More than building showy mansions,
More than dress and fine array;
More than domes and lofty steeples,
More than station, power, and sway.
Make our homes both neat and tasteful,
Bright and pleasant, always fair,
Where each heart shall rest contented,
Grateful for each beauty there.

Seek to make your home most lovely,
Let it be a smiling spot
Where in sweet contentment resting,
Care and sorrow are forgot.
Where the flowers and trees are waving,
Birds will sing their sweetest song;
Where the purest thoughts will linger;
Confidence and love belong.

There each heart will rest contented,
Seldom wishing far to roam;
Or, if roaming, still will ever
Cherish happy thoughts of home.
Such a home makes men the better,
Sure and lasting the control;
Home with pure and bright surroundings,
Leaves its impress on the soul.

A COUNTRY editor, who is not altogether up with the times, informs an expectant public that the "Yale boys" have arrived in England to row against Oxford.

THE private who, in the late review, was struck by a thought, and the bystander who sat down on the spur of the moment, are both said to be slowly recovering.

LOVING wife at Long Branch: "The horrid surf makes me keep my mouth shut." Sarcastic husband: "Take some of it home with you."

SOME one says of a certain congregation, that they pray on their knees on Sundays, and on their neighbors the rest of the week.

"Do you call this a trunk?" growled a dejected porter; "it only needs a lightning rod to be mistaken for a boarding house."

A "DREADFUL little for a shilling," said a penurious fellow to a physician who dealt out an emetic; "can't you give more?"

IT is said that the President has now a policy for which he paid a pecuniary consideration to a life insurance man.

CHARLES KEAN said a bad horse was like a poor play; it can't run and won't draw.

WHY is the road of transgressors so hard? Because it is so much travelled.

AYER'S CATHARTIC PILLS

For all the Purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills readily cure:—For Dyspepsia or Indigestion, Listlessness, Langour and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Dysentery or Diarrhœa, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. DR. J. C. AYER & CO.,

AYER'S HAIR VIGOR,

For Restoring Gray Hair to its Natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where follicles are destroyed, or the glands atrophied and destroyed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hair Dressing,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Pacific Protective Association of California.

Incorporated.....Oct. 1868.

OBJECT.

The object of this Association is to secure a cash payment, within sixty days after the death of a subscriber, to his or her heirs or assigns, of as many dollars as there are individuals of the class to which said deceased subscriber belonged.

MEMBERSHIP.

The subscription fees are TEN DOLLARS at joining, and ONE DOLLAR on the death of each subscriber. The One Dollar from each subscriber is paid to the heirs or assigns of the deceased.

THE FUNDS.

The By-Laws of the Association require that a portion of the money received as subscription fees shall be a sinking fund to meet assessments falling due by the delinquencies of subscribers. The balance of the money received to be used for the expenses incurred by the Association.

MEMBERS.

A subscriber failing to pay his or her assessment of one dollar within Thirty Days from receipt of notice forfeits his or her Certificate, and all claims upon the Association, unless good cause is shown for further delay. A subscriber can forward money in advance, which amount will be credited on future assessments. The subscribers are divided into classes including males and females. Each class is limited to 5000 subscribers. As classes are filled, new ones will be formed. No person is so poor that he cannot pay Ten Dollars at joining and One Dollar occasionally, thus securing $5000 to his or her heirs or assigns.

ADVANTAGES.

The advantages of this Association are, that no money panic can effect it. Its benefits are easily attainable by all, and every subscriber added to the Association enhances the interest and protection of all; the amount paid being so small, and only at long intervals, that any person can secure for his family a competency upon his death.

CLASSES.

In class A, all persons between the ages of 15 and 40 year. In class B, all persons between the ages of 40 and 60 years. Any one that has not stated his or her age correctly, will forfeit all money paid and his or her certificate.

One class cannot be assessed if one of another class dies. Classes have no connection with each other.

HOW TO BECOME A MEMBER.

A person desirous of becoming a subscriber must fill out an application and forward with it Ten Dollars by check, draft, or by Express, in gold or silver coin. Persons can pay agents, when regularly appointed and authorized to receive money. Each subscriber should interest himself in obtaining new members; by so doing all are benefitted.

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J.
